Response to Arguments

Applicant's arguments filed 7/26/06 have been fully considered but they are not persuasive.

Applicants argue that the present claims differ from the cited art by the use of different materials and that the prior art would not face the same types of problems.

The present claims are apparatus claims, accordingly, only structural limitations are given patentable weight. The prior Office action showed how the present claims are anticipated by reciting the same structure found in the prior art. Accordingly, the claims stand rejected.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will

the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
